robin dods roof tile excellence award 2019 design competition brief

MESSAGE FROM THE CEO OF AUSTRALIAN ROOFING TILE ASSOCIATION

Roofing is often considered the icing on the cake for a building project, marking the final step where a design transforms into an enclosed space. To create an attractive roof, we firmly believe in the striking beauty and volumetric opportunity rendered bountiful by the roof tile; strong and highly resistant to salt, wind, and fire, roof tiles are a durable and attractive option in composing the final piece of a project's construction. The Robin Dods Roof Tile Excellence Award encourages innovative designs playing on the geometry of roofscape using terracotta and concrete roof tiles.

In 2014, the built category was established as a part of the awards in 2014 paying tribute to architect Robin Dods. Dods was a firm believer in sustainable design customised to suit the surrounding climate, especially in roofing. Combining passive solar design while allowing for ventilation and insulation, Dods had a distinctive style of gabled roofs in his designs for domestic dwellings. Established to commemorate innovation and creativity in the use of terracotta and concrete roof tiles, the category recognises the important contributions that architects, manufacturers, builders and block layers make in bringing outstanding projects to life.

The winner of this category will receive a \$10,000 cash prize.

In 2019, over 260 entries were received across all award categories. The Robin Dods Roof Tile Excellence Award entries showcased interesting spatial manipulation and incredible detailing, entwining elements of historic and contemporary styles together to create modern projects fused with the past.

Every year the high commendations of the Robin Dods Roof Tile Award inspire not only professionals in the design and construction industry, but also the manufacturers in how they can tailor material production to grow and develop alongside evolving design concepts.

We are excited to see your designs this year's entries.

industry overview

WHO IS THE AUSTRALIAN ROOFING TILE ASSOCIATION?

The Australian Roofing Tile Association is the roof tile industry's peak organisation, representing the concerns and interests of members across the country, with a particular focus on training (including apprenticeships) and occupational health and safety issues.

ARTA represents more than 90 per cent of the roof tile industry, including all manufacturers of concrete and terracotta roof tiles.

Tiled roofs combine superior durability, colour fastness, strength with a long life. They also help reduce the intrusion of external noises, provide protection against radiant heat in a bushfire, have high levels of thermal insulation, and offer more resistance to wind suction than lightweight sheets.

Those are just some of the reasons why tiled roofs are preferred by more home owners and builders across Australia.

AUSTRALIAN ROOF TILING MARKET

The roof is an integral part of any building, and roof tiling celebrates a skilled trade to execute design.

In 2013, the Roofing Services industry generated a total of \$2.65 billion in revenue with \$875 million value-added services.

award introduction

COMPETITION OVERVIEW

The Robin Dods Roof Tile Excellence Award category rewards innovation and craftsmanship in terracotta roof tiles and recognises the contribution of architects, builders, roof tilers and manufacturers in that process.

This Award category includes commercial and residential built projects that exemplify outstanding craftsmanship and innovation through the use of concrete and terracotta roof tiles.

The Award is named after renowned architect Robin S. Dods, who lived in Brisbane and Sydney in the early 1900s. Robin Dods believed in sustainable design to suit the climate, especially in roofing. His distinctive style of gabled roofs for domestic dwellings, which combined passive solar design while allowing for ventilation and insulation, became prevalent all over Queensland.

Some of his heritage-listed commercial projects that incorporate his distinctive style include the All Saints Memorial Church in Tamrookum and the Maryborough City Hall in Queensland.

robin dods roof tile excellence award entry criteria

GENERAL

Nominated project must meet the following criteria:

- Completed since January 2018 and located in Australia or, if internationally located, built with Australian manufactured roof tile products.
- Residential projects will be accepted as new developments or as a reroof.
- Concrete or Terracotta roof tiles must feature prominently in design and make up 80% of the main material.
- Nulock systems will only be accepted if they are completed using concrete or terracotta roof tiles.
- Integrated solar roof tiles (Photovoltaic (PV) roof tiles) are accepted provided they form part of the roofing material, discreetly integrating with similar-looking non-solar tiles. Bolt on systems will not be accepted.
- Tiled roofs must be constructed in accordance with Australian Standards, with products used also meeting Australian Standards.
- Not entered into previous Think Brick awards.
- Entry must be submitted by the closing date of **Thursday 9th April 2020**.
- Only entries that are submitted in full and [online through our website](#) will be accepted.
- A project may be entered in multiple categories, providing that project meets the criteria of the specific category as outlined below. Each project may only be entered once in the same category.
